LeadLine / Web & Mobile App Developer
APRIL 2015 - PRESENT, DENVER, CO

I currently work remotely for LeadLine, LLC., a Tucson, AZ based software company that specializes in lead generation and CRM tools.

As a developer for Online Sales Pro, my tasks include:

- Build iOS and Android white label apps using the React Native and Ionic frameworks.
- Build and maintain the landing page creator w/ PHP and JQuery.
- Build the web app frontend, powered by Bootstrap and JQuery.

As the lead developer of LeadOwl, my tasks include:

- Build the iOS & Android app using the Ionic framework.
- Assist with building the Bootstrap and Vue.js web app frontend.
- Assist with project management, backend development, system administration, and testing

Unmanned Systems Source / Web Development Intern
APRIL 2014 - APRIL 2015, TUCSON, AZ

As a senior in college, I interned as a web developer building custom solutions for USS's eCommerce platform. My tasks included:

- Built custom Wordpress + Woocommerce templates.
- Customized and rewrote JavaScript and PHP plugins to extend functionality and add necessary custom features.
- Oversaw website administration and analytics collection.

Education

University of Arizona / Computer Science
AUGUST 2011 - MAY 2015, TUCSON, AZ
